

**PRE-AWARD AUDIT OF ROLLING STOCK PURCHASES**  
**49 CFR PART 663**  
**BUY AMERICA CERTIFICATION**

Kentucky Public Transit Association D/B/A/ KPTA hereby certifies that the rolling stock to be procured through a contract with Central States Bus Sales, Inc. Meets the requirements of Section 165(a), or (b) (3), of the Surface Transportation Assistance Act of 1982, as amended, and hereby submits its Buy America Audit prepared by someone other than the above manufacturer or its agent which lists both the Chassis and Conversion:

- (1) Components and subcomponent parts of the rolling stock identified by manufacturer of the parts, their country of origin and costs; and
- (2) The location of the final assembly point for the rolling stock, including a description of the activities that will take place at the final assembly point and the cost of final assembly.

The above information is attached.

Signature *Shirley L. Cummings*  
 Title Vice President  
 Date: January 4, 2011

\*\*\*\*\*

The \_\_\_\_\_ certifies that it has obtained and is submitting the letter from the Federal Transit Administration (FTA) granting a waiver from the Buy America requirements under section 165(b)(1), (b)(2), or (b)(4) of the Surface Transportation Assistance Act of 1982, as amended, for the rolling stock to be purchased through a contract with Kentucky Public Transit Association D/B/A/ KPTA under Project No. \_\_\_\_\_ The above letter

is attached.

Assumptions

- \* Non-Ford manufacturing facilities are noted.
- \* Percentages include prorated direct assembly labour, engineering costs, overhead, other costs, and profit.
- \* Component material costs based on 2011 Bill of Material.
- \* Costs are for vehicles pertaining to the Watson Quality Ford Inc.request. Content for other E-Series vehicles could be different.
- \* E-Series vehicles are assembled at Ohio Plant, USA.

This document may contain confidential business information. It is being supplied with the understanding that it will not be released to third parties, and that it will be used solely for the purpose of complying with the Buy America requirements of federal law or other applicable content requirements.

**PRE-AWARD AUDIT OF ROLLING STOCK PURCHASES**  
**49 CFR PART 663**  
**BUY AMERICA CERTIFICATION**

Kentucky Public Transit Association D/B/A/ KPTA hereby certifies that the rolling stock to be procured through a contract with Central States Bus Sales, Inc. Meets the requirements of Section 165(a), or (b) (3), of the Surface Transportation Assistance Act of 1982, as amended, and hereby submits its Buy America Audit prepared by someone other than the above manufacturer or its agent which lists both the Chassis and Conversion:

- (1) Components and subcomponent parts of the rolling stock identified by manufacturer of the parts, their country of origin and costs; and
- (2) The location of the final assembly point for the rolling stock, including a description of the activities that will take place at the final assembly point and the cost of final assembly.

The above information is attached.

**CERTIFICATION OF COMPLIANCE WITH FEDERAL MOTOR VEHICLE SAFETY STANDARDS**

Kentucky Public Transit Association D/B/A/ KPTA hereby provides its self-certification that the rolling stock to be procured through a contract with the Central States Bus Sales, Inc. Complies with the FMVSS issued by the National Highway Traffic Safety Administration in part 571 of this title and complies with the relevant Federal Motor Vehicle Safety Standards (FMVSS).

Title Vice President

Date January 4, 2011

The Bidder must attach its self-certification on Company letterhead that the vehicle it proposes to supply meets or exceeds the FMVSS. A copy of the testing at Altoona, PA must be included as a part of the bid.  
\*\*\*\*\*

The \_\_\_\_\_ certifies that it has obtained and will keep on file its certification that it received a statement from the manufacturer that the rolling stock to be purchased under this part is not subject to the FMVSS issued by the National Highway Traffic Safety Administration in part 571 of this title. (This subpart shall not apply to rolling stock that is not a motor vehicle.)

Above statement is included on Company letterhead.

**STARCRRAFT BUS**  
a division of Forest River, Inc.

**FMVSS/CMVSS Compliance Summary 2010-2011**

The following information describes briefly the C/FMVSS standards and the Compliance Action that has been taken by either Starcraft, the chassis manufacturer or both. This summary is not intended to replace the standards on file at Starcraft, but is intended to briefly describe and summarize them.

C/FMVSS No.	Standard Description	Compliance Action
101	Control Location, Identification and Illumination	Starcraft does not alter the OEM controls or displays. Any aftermarket seats and/or controls or displays subject to the standard meet this standard. Test data on file.
102	Transmission Shift Lever Sequence, Starter Interlock & Transmission Braking Effect	Compliance is deferred to the chassis manufacturer.
103	Windshield Defrosting & Defogging Systems	Compliance is deferred to the chassis manufacturer.
104	Windshield Wiping & Washing Systems	Compliance is deferred to the chassis manufacturer.
105	Hydraulic Brake Systems	Test data kept on file for vehicles that have had the frame stretched, or have had other system modifications. For Non-stretched vehicles compliance is deferred to the chassis manufacturer.
106	Brake Hoses	Vehicles with stretched frames have additional lines installed by Sellers using OEM components. Other vehicles that have had system modifications use OEM or OEM-approved components and are tested for compliance. For Non-stretched vehicles compliance is deferred to the chassis manufacturer.
108	Lamps, Reflective Devices & Associated Equipment	Starcraft does not alter OEM lighting. Additional lighting to include brake, turn, clearance and reverse lamps meet standard. Data on file.
111	Rear View Mirrors	All aftermarket mirrors installed by Starcraft meet this standard and DOT regulations.
112	Headlamp Concealment Devices	Starcraft does not manufacture vehicles with headlamp concealment devices.
113	Hood latch systems	Compliance is deferred to the chassis manufacturer.
114	Theft Protection	Compliance is deferred to the chassis manufacturer.
115	Vehicle Identification Number	Compliance is deferred to the chassis manufacturer.
116	Hydraulic Brake Fluids	Starcraft does not alter brake systems. Vehicles with stretched frames have additional fluid added by Sellers using OEM instruction and materials. All other system modifications utilize only OEM-approved fluid. For Non-stretched vehicles compliance is deferred to the chassis manufacturer.
118	Power Operated Window, Partition, and Roof Panel Systems	Compliance is deferred to the chassis manufacturer.
120	Tire Selection and Rims for Motor Vehicles Other Than Passenger Cars	Compliance is deferred to the chassis manufacturer.
121	Air Brake Systems	All vehicles manufactured by Starcraft that are equipped with air brake systems have no modifications made to the air brake system as supplied by the chassis manufacturer.
124	Accelerator Control Systems	Starcraft does not alter the OEM accelerator system, with the exception of the addition of aftermarket fast idle systems on some vehicles. These systems meet this standard when installed in accordance with instructions.
201	Occupant Protection in Interior Impact	All vehicles applicable to the standard (under 10,000 lbs.) do not have alterations made that affect the compliance to this standard.
202	Head Restraints	All vehicles applicable to the standard (under 10,000 lbs.) have seating installed that meets this standard. Test data on file.
203	Impact Protection for the Driver from the Steering Control System	Compliance is deferred to the chassis manufacturer.

**STARCRAFT BUS**  
a division of Forest River, Inc.

**FMVSS/CMVSS Compliance Summary 2010-2011**

The following information describes briefly the C/FMVSS standards and the Compliance Action that has been taken by either Starcraft, the chassis manufacturer or both. This summary is not intended to replace the standards on file at Starcraft, but is intended to briefly describe and summarize them.

204	Steering Control Rearward Displacement	Compliance is deferred to the chassis manufacturer.
205	Glazing Materials	No modifications are made to the OEM Glazing materials. Additional glazing materials meet the standard. Test data on file.
206	Door Locks and Door Retention Devices	All vehicles manufactured by Starcraft (non-buses) that are subject to this standard have no modifications made which affect compliance to the standard.
207	Sealing System	All sealing installed by Starcraft meets this standard. Test data on file.
208	Occupant Crash Protection	No alterations are made to the OEM seat belts, air bag systems or associated hardware. Any seat belt systems added meet the standard. Test data on file.
209	Seat Belt Assemblies	No alterations are made to the OEM seat belts or associated hardware. Any seat belt systems added meet the standard. Test data on file.
210	Seat Belt Assembly Anchorage	No alterations are made to the OEM seat belts or associated hardware. Seat belt systems and their installation meet the standard. Test data on file.
212	Windshield Mounting	Compliance is deferred to the chassis manufacturer.
213	Child Restraint Systems	Vehicles manufactured by Starcraft that are subject to this standard (under 10,000 lbs.) have seating installed that meets this standard. Test data on file.
214	Side Impact Protection	Vehicles subject to this standard have been tested by TRC to the standard.
216	Roof Crush Resistance	Starcraft does not manufacture vehicles that are subject to this standard.
217	Bus Window Retention and Release	No modifications are made to the OEM windows. Additional windows meet the standard. Test data on file.
219	Windshield Zone Intrusion	Compliance is deferred to the chassis manufacturer.
220	School Bus Rollover Testing	Vehicles manufactured by Starcraft that are subject to this standard have been tested to meet this standard. Test data on file.
221	School Bus Body Joint Strength	Vehicles manufactured by Starcraft that are subject to this standard have been tested to meet this standard. Test data on file.
222	School Bus Passenger Seating and Crash Protection	Vehicles manufactured by Starcraft that are subject to this standard have seating installed that meets this standard. Test data on file.
225	Child Restraint Anchorage Systems	Vehicles manufactured by Starcraft that are subject to this standard (under 10,000 lbs.) have seating installed that meets this standard. Test data on file.
301	Fuel System Integrity	Compliance is deferred to the chassis manufacturer. Vehicles with modified fuel systems, such as mobility minivans have been tested by TRC to the standard.
302	Flammability of Interior Materials	All materials installed in the interior of Starcraft products meet the standard. Test data on file.
303	Fuel System Integrity of Compressed Natural Gas Systems	Starcraft does not typically produce vehicles with CNG systems. All vehicles equipped with CNG systems exceed the applicability (10,000 lbs. or less) of this standard.
304	Compressed Natural Gas Fuel Container Integrity	Starcraft does not typically produce vehicles with CNG systems. All vehicles equipped with CNG systems exceed the applicability (10,000 lbs. or less) of this standard.
404	Platform Lift Installation on Motor Vehicles	Starcraft installs wheelchair lifts according to manufacturer instructions and direction. Installations are verified and tested.

Title: Standard and Compliance Administrator

## EXECUTIVE SUMMARY

Starcraft Automotive Group, Inc., submitted a model Allstar, diesel powered 17 seat/25-foot bus, for a 5 yr/150,000 mile STURAA test. The odometer reading at the time of delivery was 0,631.0 miles. Testing started on October 1, 1998, and was completed on December 14, 1998. The Check-In Section of the report provides a description of the bus and specifies its major components.

The primary part of the test program is the Structural Durability Test, which also provides the information for the Maintainability and Reliability results. The Structural Durability Test was started on October 9, 1998 and was completed on November 24, 1998.

The first segment of the Structural Durability Test was performed with the bus loaded to a GVW of 13,430 lb. The number of standing passengers was reduced from 10 standees and two wheelchair positions, to 4 standees and two wheelchair positions (600 lb per. wheelchair position). This reduction in passenger weight was necessary to avoid exceeding the GAWR (9,450 lbs.) of the rear axle. The middle segment was performed at a SLW of 13,000 lb. The final segment was performed at a curb weight of 9,460 lb. Durability driving resulted in unscheduled maintenance that consisted of a variety of subsystem failures. These unscheduled maintenance breakdowns can be found in a complete and detailed listing of scheduled and unscheduled maintenance, which is provided in the Maintainability Section of this report.

Accessibility, in general, was adequate. Components covered in Section 1.3 (repair and/or replacement of selected subsystems), were found to be readily accessible and no restrictions were noted. Those components found with limited access were the engine belts, the alternator and the A/C compressor.

The Reliability Section compiles failures that occurred during Structural Durability Testing. Breakdowns are classified according to subsystems. The data in this section are arranged so that those subsystems with more frequent problems are apparent. Failures are classified according to the severity as defined in Section 2. The test bus encountered no Class 1 or Class 2 failures. Of the eleven reported failures, seven were Class 3 and four were Class 4.

A Double-Lane Change (obstacle avoidance) Test was safely performed in both right-hand and left-hand directions up to a maximum test speed of 45 mph. The performance of the bus is illustrated by a speed vs. time plot. Acceleration and Gradeability Test data are provided in Section 4, Performance. The average time to obtain 50 mph was 17.76 seconds.

The Shakedown Test produced a maximum final loaded deflection of 0.314 inches with a permanent set ranging between -0.004 to 0.005 inches under a distributed static load of 11,325 lb. The Distortion Test was completed with water leakage observed during all portions of testing at the top seal of the rear access door. The results of this test are indicated on the following data forms. All subsystems operated properly. The test bus was not equipped with any type of tow eyes or tow hooks; therefore, the Static Towing Test was not performed. The Dynamic Towing Test was performed by means of a front lift tow. A hydraulic under lift was incorporated as the towing interface. No deformation or damage was noted, and no problems were encountered with the towing interface. A rear test was not performed as per manufacturer's recommendations. The Jacking and Hoisting Tests were also performed without incident. The bus was found to be stable on the jack stands, and the minimum jacking clearance observed with a tire deflated was 8.00 inches.

A Fuel Economy Test was run on simulated central business district, arterial, and commuter courses. The results were 6.34 mpg, 7.15 mpg, and 11.86 mpg respectively; with an overall average of 7.59 mpg.

A series of Interior and Exterior Noise Tests was performed. This data is listed in Section 7.1 and 7.2 respectively.

PRE-AWARD AUDIT OF ROLLING STOCK PURCHASES  
49 CFR PART 663

PURCHASER'S REQUIREMENTS CERTIFICATION

Kentucky Public Transit Association D/B/A/ KPTA hereby certifies that the rolling stock to be purchased through a contract with Central States Bus Sales, Inc. Is the same product described in the solicitation specifications; and that the proposed manufacturer is a responsible manufacturer with the capability to produce a vehicle that meets the specifications set forth in the solicitation for bids.
